Canada

Trade-marks Journal

Vol. 64 No. 3281

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

preparations for destroying vermin (including insecticide and preparations for expulsing insects, other insecticides, preparations for destroying slugs, preparations for destroying mice and rat poison, preparations for destroying parasites), fungicides, herbicides (including herbicides and pesticides), common metals and their alloys, ores, metal building materials, in particular of steel, (including barrels, poles, posts, slats, building boards, metal structures, such as scaffolding, grills, bars, palings, frames for buildings, supporting structures for buildings), transportable buildings of metal, (including chicken coops, horse stables, horse stands, cages and aviaries, stairs and stair railings), materials of metal for railway tracks, non-electric cables and wires of common metal, in particular binding wire, wire nettings, wire of iron and copper (respectively for agricultural purposes) , ironmongery, small items of metal hardware, pipes and tubes of metal, windows of aluminium, window handles, window bars, shutters, doors, garage doors, roof tiles, fences, mailboxes (each of metal), machines, used in agriculture, horticulture and forestry, including machinery for gardening processing and maintenance, and for the production and conversion of renewable energy and systems composed thereof, namely hydroelectric power plants, biogas and biomass plants, pumps as parts of geothermal or solar thermal plants, wind power plants, wind turbines and other machines powered by wind, , and parts and accessories of such wind power plants, in particular rotor blades, rotors, rotor consoles, blade hubs, machine housings and machine bases of metal for fastening or anchoring of machinery, as well as agricultural machinery and mechanical agricultural implements for distributing material, fertilizing, seeding, for plant protection, tillage, mowing or sweeping, motors and engines (except for land vehicles), in particular power generation from renewable sources, in particular in combination with combined heat and power plants, machines and motors to generate gas and heat (waste heat), internal combustion engine with coupled heat exchanger to generate power and heat as complete unit (combined heat and power unit), power generates, machines and motors to generate gas, pumps for heating installations, machine coupling and transmission components (except for land vehicles), agricultural, horticulture and forestry implements other than hand-operated, incubators for eggs, automatic vending machines, machine tools, hand tools and implements, in particular used in agriculture, horticulture and forestry , such as garden tools and equipment for the destruction of plant parasites (hand-operated), cutlery , pruning knifes, blades, pruning shears and secateurs, side arms, razors, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, in particular sensors as part of or as an accessory of agricultural machinery and mechanical farming equipment, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, in particular electric and electronic apparatus and instruments for regulation, controlling and monitoring of solar, biogas, biomass, fuel cells, wind and hydropower as well as geothermal plants and solar thermal plants as well as electronic regulation, controlling and monitoring equipment, apparatus and instruments or on-board computers as part or accessory of agricultural machinery and mechanical farming equipment, solar collectors to generate power, fuel cells, apparatus for recording, transmission or reproduction of sound or images, magnetic data carriers, recording discs, compact discs, DVDs, digital recording media, satellite transmitter and satellite receiver, mechanisms for coin-operated apparatus, cash registers, calculating machines, data processing equipment, computers, software for regulation, controlling and monitoring of solar, biogas, biomass, fuel cells, wind and hydropower as well as geothermal plants and solar thermal plants, computer software, including computer programs and computer operating programs, in particular software application, surgical, medical, and veterinary apparatus and instruments, orthopaedic articles, suture materials, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, in particular tiles, boilers and heaters, heater armatures, precombustion chambers for liquid or gaseous combustible, heating equipment, as well as parts of aforementioned goods, steam generators (except parts of machines)

, gas generators, heater apparatus and heaters, parts of aforementioned goods and sublimates and fitting parts for the aforementioned goods, , hot water apparatus, boilers, gas boilers, heating installation, cooling tanks, air conditioners as well as sanitary facilities, in particular fermentation tanks (fermenters) of biogas plants, explosive gas pre-combustion chambers, geothermal and solar thermal plants, solar collectors (heating) and solar ovens, heat pumps, heat recovery machines, heat storage tanks, heat exchangers, hot water heating plants, vehicles, apparatus for locomotion by land, air or water, in particular motors for farm vehicles, clutches and power transmission mechanisms for farm vehicles, horse-drawn carriages and horse trailers, paper, cardboard, printed matter, bookbinding material, photographs, stationery, adhesives for stationery or household purposes, artists' materials, paint brushes, typewriters, office requisites (except furniture), manuals, plastic materials for packaging, printers' type, printing blocks, rubber, gutta-percha, gum, asbestos, mica, plastics in extruded form for use in manufacture, damping material packing, stopping and insulating materials, flexible pipes, (not of metal), joint dimension for drywalls, leather and imitations of leather, animal skins, hides, trunks and travelling bags, umbrellas, parasols, walking sticks, whips, harness and saddlery, in particular bridle for horses, building materials (not of metal), in particular cement, plaster, concrete, gypsum, non-metallic rigid pipes for building, asphalt, pitch, bitumen, non-metallic transportable buildings, towers and tower segments for wind energy plants (not of metal), monuments (not of metal), stalls (not of metal), windows (not of metal), shutters (not of metal), doors (not of metal), garage doors (not of metal), parquet and parquet boards (not of metal), laminate of wood, laminate (not of metal), floor tiles, roof tiles (not of metal), cobble and natural stone, fences (not of metal), furniture, mirrors, picture frames, goods of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and substitutes for all these materials or of plastics, namely works of art, figures, statues, statuettes, furnishings, fastening material, containers (of wood, horn, bones or reed), shelters and beddings for animals, broomsticks (not of metal), beddings, baskets, dowel, window bars (not of metal), garden furniture, handles (not of metal), boxes and crates (not of metal), pallets, blinds, cable ties, ladders and mobile stairs, shelves, lockers (not of metal), tons and barrels, door, gate and window fitters, mail boxes (not of metal and not of masonry), household or kitchen utensils and containers, in particular mouse traps and insect traps, combs, sponges, brushes (except paint brushes), in particular horse brushes, brush-making materials, articles for cleaning purposes, namely all-purpose cleaning preparations, cleaning and polishing cloths, cleaning mitts, cleaning rags, cleaning, dusting and polishing cloths, cotton waste for cleaning, household cleaning loofahs, household cleaning towelettes, and pads of metal for cleaning, steel wool, unworked or semi-worked glass (except glass used in building), glassware, porcelain and earthenware, ropes, string, nets, tents, awnings, tarpaulins, sails, sacks, in particular net yarn, lacing thread for agricultural purposes, padding and stuffing materials (except of rubber or plastics), raw fibrous textile materials, yarns and threads, for textile use, textiles, textile goods, bed covers, table covers, clothing, in particular work clothes, footwear, headgear, lace, embroidery, ribbons and braid, buttons, hooks and eyes, pins and needles, artificial flowers, carpets, rugs, mats and matting, linoleum, materials for covering existing floors, wall hangings (non-textile), meat, fish, poultry, game , meat extracts, preserved, frozen, dried and cooked fruits and vegetables, jellies, jams, compotes, eggs, milk, milk products, edible oils, edible fats, coffee, tea, cocoa, artificial coffee, rice, tapioca, sago, flour, preparations made from cereals, bread, pastry, confectionery, ices, sugar, honey, treacle, yeast, baking-powder, salt, mustard, vinegar, sauces (condiments), spices, ice, grains, agricultural products , horticultural products , forestry products , live animals, fresh fruits and vegetables, in particular potatoes, seed grain and other seeds, agricultural and horticultural seeds, in particular flower and vegetable seeds, natural plants, natural flowers, foodstuffs for animals, malt and hop, lawn; retail sales, wholesale sales, online sales, mail order and home shopping services by telephone and television of chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, in particular preparations for preserving flowers, chemicals for protection against disease patterns in agriculture and forestry as well as in viniculture, fruit, hop growing, vegetable gardening and horticulture, antifreeze, impregnator, preservatives, preservatives for seeds, salts (not for conservation of foodstuffs), unprocessed artificial resins, unprocessed plastics, manures, in particular flower soil, soil improver, compost, soil culture, phosphates, peat, fire extinguishing compositions, tempering preparations, soldering preparations, chemical substances for preserving foodstuffs, tanning substances, adhesives used in industry, paints, varnishes, lacquers, in particular lacquers for silos, preservatives against rust, preservatives against deterioration of wood, colorants, mordants, raw natural resins, metals in foil and powder form for painters, decorators, printers and artists, substances for laundry use, bleaching preparations, cleaning preparations, polishing preparations, scouring preparations, abrasive preparations, Industrial oils and greases, in particular rapeseed oils and engine oils plant-based, lubricants, in particular as well plant-based, fuels and heating fuels (including motor spirit), in particular such as plant-based (including bio diesel, in particular rapeseed-based), and products of plant or animal origin of all kinds, prepared or preserved, to use for feeding into modules to generate electricity or heat, and illuminations, candles and wicks for lighting, pharmaceutical preparations, veterinary preparations, sanitary preparations for medical purposes, dietetic food and substances adapted for medical or veterinary use, dietary supplements for animals, plasters, materials for dressings, material for stopping teeth, dental wax, disinfectants, preparations for destroying vermin (including insecticide and preparations for expulsing insects, other insecticides, preparations for destroying slugs, preparations for destroying mice and rat poison, preparations for destroying parasites), fungicides, herbicides (including herbicides and pesticides), common metals and their alloys, ores, metal building materials, in particular of steel, (including barrels, poles, posts, slats, building boards, metal structures, such as scaffolding, grills, bars, palings, frames for buildings, supporting structures for buildings), transportable buildings of metal, (including chicken coops, horse stables, horse stands, cages and aviaries, stairs and stair railings), materials of metal for railway tracks, non-electric cables and wires of common metal, in particular binding wire, wire nettings, wire of iron and copper (respectively for agricultural purposes), ironmongery, small items of metal hardware, pipes and tubes of metal, windows of aluminium, window handles, window bars, shutters, doors, garage doors, roof tiles, fences, mailboxes (each of metal), machines, used in agriculture, horticulture and forestry, including machinery for gardening processing and maintenance, and for the production and conversion of renewable energy and systems composed thereof, namely hydroelectric power plants, biogas and biomass plants, pumps as parts of geothermal or solar thermal plants, wind power plants, wind turbines and other machines powered by wind, and parts and accessories of such wind power plants, in particular rotor blades, rotors, rotor consoles, blade hubs, machine housings and machine bases of metal for fastening or anchoring of machinery, as well as agricultural machinery and mechanical agricultural implements for distributing material, fertilizing, seeding, for plant protection, tillage, mowing or sweeping, motors and engines (except for land vehicles), in particular power generation from renewable sources, in particular in combination with combined heat and power plants, machines and motors to generate gas and heat (waste heat), internal combustion engine with coupled heat exchanger to generate power and heat as complete unit (combined heat and power unit), power generates, machines and motors to generate gas, pumps for heating installations, machine coupling and transmission components (except for land vehicles), agricultural, horticulture and forestry implements other than hand-operated, incubators for eggs, automatic vending machines, machine tools, hand tools and implements, in particular used in agriculture, horticulture and forestry, such as garden tools and equipment for the destruction of plant parasites (hand-operated), cutlery, pruning knifes, blades, pruning shears and secateurs, side arms, razors, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, in particular sensors as part of or as an accessory of agricultural machinery and mechanical farming equipment, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, in particular electric and electronic apparatus and instruments for regulation, controlling and monitoring of solar, biogas, biomass, fuel cells, wind and hydropower as well as geothermal plants and solar thermal plants as well as electronic regulation, controlling and monitoring equipment, apparatus and instruments or on-board computers as part or accessory of agricultural machinery and mechanical farming equipment, solar collectors to generate power, fuel cells, apparatus for recording, transmission or reproduction of sound or images, magnetic data carriers, recording discs, compact discs, DVDs, digital recording media, satellite transmitter and satellite receiver, mechanisms for coin-operated apparatus, cash registers, calculating machines, data processing equipment, computers, software for regulation, controlling and monitoring of solar, biogas, biomass, fuel cells, wind and hydropower as well as geothermal plants and solar thermal plants, computer software, including computer programs and computer operating programs, in particular software application, surgical, medical, and veterinary apparatus and instruments, orthopaedic articles, suture materials, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, in particular tiles, boilers and heaters, heater armatures, precombustion chambers for liquid or gaseous combustible, heating equipment, as well as parts of aforementioned goods, steam generators (except parts of machines), gas generators, heater apparatus and heaters, parts of aforementioned goods and sublimates and fitting parts for the aforementioned goods, hot water apparatus, boilers, gas boilers, heating installation, cooling tanks, air conditioners as well as sanitary facilities, in particular fermentation tanks (fermenters) of biogas plants, explosive gas pre-combustion chambers, geothermal and solar thermal plants, solar collectors (heating) and solar ovens, heat pumps, heat recovery machines, heat storage tanks, heat exchangers, hot water heating plants, vehicles, apparatus for locomotion by land, air or water, in particular motors for farm vehicles, clutches and power transmission mechanisms for farm vehicles, horse-drawn carriages and horse trailers, paper, cardboard, printed matter, bookbinding material, photographs, stationery, adhesives for stationery or household purposes, artists' materials , paint brushes, typewriters, office requisites (except furniture), manuals, plastic materials for packaging, printers' type, printing blocks, rubber, gutta-percha, gum, asbestos, mica, plastics in extruded form for use in manufacture, damping material, packing, stopping and insulating materials , flexible pipes, (not of metal), joint dimension for drywalls, leather and imitations of leather, animal skins, hides, trunks and travelling bags, umbrellas, parasols, walking sticks, whips, harness and saddlery, in particular bridle for horses, building materials (not of metal), in particular cement, plaster, concrete, gypsum, non-metallic rigid pipes for building, asphalt, pitch, bitumen, non-metallic transportable buildings, towers and tower segments for wind energy plants (not of metal), monuments (not of metal), stalls (not of metal), windows (not of metal), shutters (not of metal), Goods

(1) Chemical products for treating liquid and solid waste and waters, namely flocculants, coagulants , polyelectrolytes, reagents. Chemical products and additives for water conditioning, namely biocides, biological detergents, anti-corrosive products, softeners, chemical agents for conditioning water from boilers, metal tanks, heating equipment and installations, cooling and refrigerating equipment and installations, water distribution equipment, thermal condensers and other installations that include piping, namely swimming pools. Organic soil conditioners, derived from the treatment and purification of liquid waste and water, for soil fertilization; composts and growth media from treatments performed in liquid and solid waste treatment plants and urban or industrial residual purification plants. Oxidizing products for the purification, sterilization and disinfection of liquids, in particular for water treatment and for food preservation. Chemical products for industrial use and industrial manufacturing processes, namely chemical products used for waste water treatment, chemical preparations for preserving foodstuffs, chemical preparations for preventing

limestone deposits, chemical preparations for treating mildew, chemical products for tempering, chemical binding agents, liquid chemical drain openers, chemicals for decontaminating polluted sites, water-purifying chemicals, chemical products for hazardous waste treatment.

(2) Common metals and their alloys; metal building materials, namely metal cladding for building, metal reinforcement materials for building, steel plates, metal covering, metal pipes for liquid and gas transfer, metal drain pipes; transportable buildings of metal, namely metal beams, bars for metal railings; metal materials for railway tracks; non-electric metal cables, wires, and ironmongery, namely wire ropes, steel wire, barbed wire, lock cylinders, lock bolts; metal hardware, namely hardware nails, hardware nuts, hardware screws, hardware bolts; pipes and tubes of metal; strongboxes; metal ores; metal constructions, namely steel frames for building; metal scaffolds; boxes made of common metals, namely metal tool boxes; metal chests; packaging containers of metal; metal containers for transport, namely containers of metal for transport; metal fluid storage tanks; street gutters of metal.

(3) Machines for water treatment, machines for filtering water through membranes, ion exchangers for water and waste treatment, biological reactors for water and waste treatment, mixers, namely chlorination apparatus for water treatment, media filters for the water treatment industry, separators for the chemical treatment of water, sterilizers for water treatment; machines for injecting chemical and physical reagents for water and waste treatment. Machines, apparatus and devices for storing and dispensing water for household use, namely drinking water, waste water, rainwater, irrigation water, namely pumps, valves; machines for irrigation, spraying, bottling, namely drainage and irrigation pipes, bottling machines. Machines and installations for physico-chemical and biological processing, dehydration, centrifugation, pressing, and spreading of liquid, semi-liquid and solid waste, in particular sludge derived from water treatment; machines for drying waste and sewage sludge. Mobile and stationary machines for water treatment and for waste treatment. Machines for automatically sorting waste, in particular household packaging waste; waste packaging and packaging removal machines; waste vacuums; installations for the generation of electricity, namely power generators.

(4) Apparatus for dosing chemical products, biological and physico-chemical reagents, namely laboratory scales and balances, dosage dispensers; programmable controllers, namely laboratory robots for measuring, tracking and controlling water quality parameters, computer software for analyzing and controlling water and waste quality parameters; apparatus and instruments for measurement and control, applied to the distribution and treatment of water, namely liquid level sensors, pollutant sensors, flow meters, water leakage alarms. Apparatus and instruments for measurement and control, applied to tracking energy and fluid consumption, namely power distributing boxes, gas and water leakage alarms, water meters, electricity meters, gas meters. Mechanical, electronic, magnetic and optical recording media for measuring and recording fluids such as water, gas and electricity for distribution and consumption tracking purposes, namely gas meters, water meters, electricity meters. Programmable computer apparatus and installations, namely computer software for remote surveillance, remote management, remote control, using the self-switching network, specialized lines and radio relay cables for controlling installations used in the treatment, distribution, collection of drinking water, waste water and industrial water. Apparatus for measurement, remote management, remote control, using the self-switching network, specialized lines and radio relay cables, for measuring and controlling fluids such as water, gas and electricity for distribution and consumption tracking purposes. Computer software for monitoring drinking water and residual water distribution and collection networks. Computer software for managing and analyzing energy and fluid consumption, namely for the management, analysis, control and tracking of water and electricity consumption; computer software for simulating the function of municipal and industrial water purification and potabilization plants; computer equipment

, namely computer software, databases and computers for controlling, regulating, modelling and managing water purification, treatment and sanitization plants. Computer software for optimizing carbon dioxide emissions related to the operation of a plant for treating water, managing water resources, collecting and treating waste and treating the air. Electric apparatus and instruments for generating ozone from gases such as oxygen and air. Electric apparatus for monitoring and controlling the quality of seawater. Apparatus and instruments for chemical and bacteriological analysis (for non-medical purposes), namely instruments for the chemical and bacteriological analysis of water. Computer software for establishing water supply billing, namely for calculating the consumption and cost of running drinking water (tap water). Measurement and control apparatus for detecting leakage in pipes, water service pipes and water storage reservoirs and tanks.

(5) Installations for generating steam and incinerating waste; apparatus and installations for water treatment and distribution, namely water sterilizers, water softening apparatus, water clarifiers, apparatus for purifying tap water; apparatus and equipment for clarification, filtration (physical and physico-chemical), softening, deionisation and demineralization (on ion exchangers) of water and liquids, namely drinking water, waste water, rainwater; equipment and accessories for water treatment, namely felt filtration media for waste water treatment, filters for drinking water, media filters for the water treatment industry. Installations for iron removal, manganese removal and the biological elimination of nitrates from water. Apparatus and installations for disinfecting and sterilizing liquid and gaseous fluids through ultraviolet radiation and other radiation. Installations for treating organic plant- and animal-based matter, urban matter and industrial matter, namely green waste, sludge from liquid and solid waste and effluent treatment plants and household and industrial residual water purification plants. Hot water heating installations, namely water heaters, hot water boilers, desalination plants, apparatus and installations for treating water and effluents from the chemical and agri-foods industries, installations and apparatus for treating and reusing effluents; apparatus for steam generating, distillation, crystallization, drying, heat exchangers, air heaters, air dryers, hot-air apparatus, namely steam generators, water distillation units, chemical fiber drying machines, heat exchangers, desiccation apparatus for removing water from air dehumidification systems, dehumidifiers, rotary dryers for industrial use, manual dryers; apparatus and installations for treating and reusing industrial, household, hospital and special waste. Apparatus for treating water and liquids, namely decanters, sterilizers, saturators, coalescers, mixers. Air treatment apparatus, namely for deodorization, purification, namely air cleaning units, air filtration apparatus for removing dust, smoke and allergens, air purifying units, air fresheners. Mobile and stationary installations and equipment for water treatment and waste treatment, namely garbage incinerators, tap water purifying apparatus, water distillation units, water softening apparatus, water sterilizers, sterilizers for waste treatment.

(6) All-terrain vehicles, armoured vehicles, utility vehicles, sport vehicles, cable cars; apparatus for locomotion by land, air and water, namely cars, boats, airplanes; handling carts, dumper bodies, automobile trucks, towing vehicles.

(7) Non-metal water pipes, namely plumbing pipes, clay pipes and conduits, industrial concrete for civil engineering structures, water supply lines and sanitation networks; insulated glass (construction), non-metal buildings, namely oil pipelines, namely pipelines for the transport of petroleum, gas pipelines, namely pipelines for the transport of gas, non-metal power line poles; building materials, not of metal, namely building timber, non-metal minerals for building, asphalt felt for building, plaster for building, building stones, logs used as building material, transportable buildings, not of metal, namely building stones, rigid pipes for building, not of metal, namely non-metal drain pipes, downspouts not of metal, non-metal branching pipes, asphalt, pitch, bitumen , cement, lime, slate, clay, non-metal construction reinforcements, ballasts, building timber, bricks,

coatings, namely anti-rust coatings, roof coatings, marble, non-metal staircases, non-metal windows, namely windows made of plastic, windows made of wood, non-metal doors, namely doors made of wood, doors made of plastic, non-metal roof coverings, namely roofing boards of wood, non-metal window shutters, namely shutters made of wood, shutters made of plastic, non-luminous and non-mechanical road signs (not of metal), materials, namely asphalt for building, for building and recoating roadways, illuminating paving blocks, binders for road maintenance, tar, tarred strips (building), non-metal guard rails for roads, glass pellets for marking road surfaces, sheets and plates made of artificial materials for marking road surfaces, gravel, aggregate, namely mineral pellets for use in building.

SERVICES

(1) Assistance services provided to industrial and commercial businesses in the conduct of their affairs, namely business management assistance for industrial and commercial companies, business management assistance, assistance in the management and operation of commercial businesses; operational intelligence services in the field of business organization and management, business management and consulting services, namely consulting related to business organization and management, business planning services, business research and study services; market research services; dissemination of advertising material (tracts, flyers, printed matter, samples), namely distribution of advertisements and advertising messages for others; organization of exhibitions for commercial and advertising purposes for the promotion of the goods and services of others; sponsorship of sporting and artistic competitions in the fields of cycling, track and field, motor sports (rallies, car races), tennis, football, rugby, handball, basketball; organization and management of trade fairs, public relations, accounting, billing, business consulting, namely business administration assistance, placement agencies, account verification, namely account auditing services, newspaper subscription services for others, press review services, relocation for businesses, writing of advertising copy, market research, economic forecasting, establishment of statistics, namely analysis of market research data and statistics, computer file management, personnel recruitment, cost analysis, document reproduction, collection of data in a central file, business information and consulting for consumers in the fields of water distribution and waste management. Administrative management of Internet and intranet sites in the field of energy and fluid consumption monitoring and management for real estate holdings. Logistic organization of the collection, transport, storage, distribution and treatment of all kinds of municipal and industrial waste, namely computer file management, computer data entry and compilation of said data in computer files; business and advertising information services for users, namely consumer product safety auditing, quality assurance services in the construction industry. Constitution and management of the files of all kinds of household and industrial waste collection, transport, storage, distribution and reclamation service users. Promotion of the sale of others' goods and services, namely sale of official packaging and of material for collecting medical waste. Administrative processing of purchase orders; finalization of purchase and sales contracts for the benefit of others; rental of telecommunications apparatus, namely rental of computers.

(2) Insurance; financial affairs, namely financial analyses, leasing, project financing, financing of loans, securities portfolio management, financial management, investment services; monetary affairs, namely electronic funds transfer, capital investment funds management, cash management, investment management; real estate affairs, namely real estate brokerage, assessment and management of real estate, property management consulting services; real estate appraisal; real estate management; financing services, namely credit and financial loan services, fundraising services, capital investment; financial analysis; capital build-up and investment; financial consulting; business estimates; investment of funds.

(3) Repair and maintenance of apparatus for treating waste water, rainwater, drinking water; servicing and maintenance of pipeline networks, restoration of aqueducts and pipelines for water distribution, building of sanitation facilities, waste water collectors, rainwater pollution control facilities, flood prevention facilities, renovation of pumping stations, upgrading of existing structures for improving security and quality of the water supply, construction of water treatment stations, namely for drinking water, urban and industrial residual water, rainwater; building of water pipes and water treatment plants, well drilling, construction, installation and repair of irrigation devices; renovation and maintenance of buildings, rehabilitation of sites, buildings, warehouses, land development services; restoration and rehabilitation of derelict sites (cleaning and reconstruction), namely construction and repair of buildings; maintenance and cleaning of buildings, sites, the ground, namely sandblasting, floor polishing; disinfection, namely building disinfection, swimming pool disinfection, well disinfection services, rat extermination, disinsectization; cleaning of buildings, city buildings, artwork, underground facilities, road equipment, industrial sites, namely exterior surfaces and housekeeping, cleaning of water pipes, industrial installations, high-pressure cleaning of underground facilities, road system cleaning services; maintenance and servicing of buildings, roads, urban works, namely bridges; repair and maintenance of facilities, apparatus, centres and units for storing waste and garbage, of centres, facilities, apparatus, and units for recycling, treating , reclaiming, destroying waste and garbage; construction of installations, centres, and units for storing waste and garbage, of centres, facilities, units for recycling, treating, reclaiming, destroying waste and garbage; cleaning of waste and garbage, maintenance and renovation of industrial and urban sanitation networks; industrial and urban sanitation network rehabilitation.

(4) Telecommunications, namely telecommunication routing and junction services, operation of a wide area telecommunications network; information regarding telecommunications, information services regarding telecommunications routing and junction, information services related to the operation of a wide area telecommunications network; communications via computer terminals and fibre optic networks; radio and television communications; electronic display services (telecommunications); provision of access to a global computer network; rental of telecommunications apparatus, namely rental of mobile telephones, modems; teleconferencing services; electronic messaging services; rental of access time to global computer networks. Radio transmission of consumption, monitoring, tracking and billing information from meters to a central database. Information services related to managing the collection, transport and treatment of medical waste. Communication via computer terminals, computer file management and provision of access to databases in the field of medical waste management. Broadcasting (transmission) of announcements and alerts to the general public in regard to computer security, personal safety, environmental safety.

(5) Water supply, water distribution services, collection of urban and industrial wastewater, sludge; collection, transport, sorting, dumping and storage of useful matter, namely urban, industrial and radioactive waste, liquid and solid waste, industrial greases, office paper; collection, transport, bringing together, sorting, identification, packaging and repacking (storage) of waste of all kinds, namely urban waste, household waste, industrial waste, common and special industrial waste, hospital waste, agricultural waste, horticultural waste, silvicultural waste, hazardous waste, solid waste and liquid waste; dumping and storage of useful materials, namely waste, hazardous and perishable goods; storage of waste; transport, packaging and storage of fertilizer, organic soil conditioners, compost, and growing media.

(6) Treatment and processing of waste produced by individuals, communities, and businesses (public and private), of common waste, special waste, solid waste, liquid waste, hazardous waste, and information services in the field of the treatment and processing of waste produced by individuals, communities, and businesses; waste purification and regeneration; waste and garbage

recycling services, waste and garbage composting services; reclamation (treatment of materials) of industrial waste, household waste, hospital waste, special waste, common waste, communities' waste, businesses' (public and private) waste, energy and biological reclamation (treatment of materials) of garbage and waste; soil decontamination services; derelict ground and site rehabilitation (decontamination) services; garbage and waste destruction services, garbage and waste incineration services, elimination of industrial toxic waste, industrial waste, household waste, hospital waste, common waste, and special waste (non-toxic); water treatment services, water treatment services conducted using the introduction of reagents, in particular in water for human and animal consumption and in water for industrial use, purification and treatment of industrial residual water, water production services; treatment of materials, namely of residue and waste from water treatment processes; processing of plant- and animal-based agricultural products for the development of fertilizers, compost, and growing media.

(8) Water quality control services, scientific and industrial research services related to environmental protection, laboratory research services in the fields of water, water purification and treatment, chemical analysis services, chemical research, professional consulting, namely technical consulting, technical project study, engineers' work and engineering work (not for construction) in the fields of water and water treatment, expertise in the field of water and effluent treatment, laboratory research services in the field of the treatment of industrial waste, household waste, hospital waste, and special waste, of trash, sludge, ashes, of the reclamation of industrial waste, household waste, hospital waste, and special waste, bacteriological research services, expertise in the fields of industrial waste, household waste, hospital waste, and special waste, of sludge and ashes from urban and industrial stations, computer programming, computer services, namely development, design, and updating of computer software and computer software packages, technical consulting and advice regarding the research and development of new products in the field of computers, computer rental, design of computer systems and telecommunications systems, namely wireless computer networks, modems, computers, telephones, telephone transmitters, telephone receivers, scientific and industrial research services for fine-tuning and assessing the performance of processes and products for the physico-chemical treatment of water; scientific and technical studies for fine-tuning and assessing the performance and operation of facilities for industrial and drinking water treatment, for residual, household, and industrial water treatment, and for biological and physico-chemical sludge and fluid treatment; technical audits (engineering work) in the fields of water, water treatment and purification; technical research centres in the fields of the collection, transport, treatment, cleaning, storage, purification, reclamation, disposal of waste and garbage; expertise (engineering work) in the field of waste and garbage; scientific and industrial research services related to environmental protection for the collection, transport, treatment, cleaning, storage, reclamation of waste and garbage; engineering services, technical project studies, engineering work in the field of the design and construction of industrial and urban centres and units for the collection, sorting, storage, treatment, reclamation and destruction of waste and garbage; air, water, and sound pollution prevention services; consulting on environmental protection, urban planning, industrialization planning and planning for the development of natural resources, information regarding research on environmental protection, studies (engineering work) on economic, social, and environmental implications, urban planning operations, industrialization and the use and development of natural resources, in particular water; soil analyses, agricultural, horticultural, vinicultural, arboricultural and silvicultural engineering. Water, air, ground quality control, namely quality control services in regard to the water, air and soil. Engineering work in the field of industrial information systems (automatism, control, operation and centralized technical management, decision support systems, operational data management systems), namely computer engineering, mechanical engineering. Technical project studies, namely project management in the fields of construction, water treatment, waste management, analysis, evaluations, estimates,

research, technical consulting in the fields of technology, namely computers, in the field of water, namely marine towing, cargo ship transport, ship brokerage, customs brokerage, unloading cargo, freight brokerage, energy, sustainable development, the environment, climate, meteorology, industrial and household waste management, water, the fight against floods, hydrogeology, wetlands development, public transit, telecommunications, namely telecommunications routing and junction, operation of a wide area telecommunications network, civil engineering, and municipal engineering.

(9) Security service for the protection of goods and people.

Class 41

(7) Education in the field of the treatment and processing of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection ; training in the field of the processing and treatment of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection; cultural activities in the form of exhibitions in the field of the treatment and processing of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection; information related to education in the field of the treatment and processing of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection; publication of books; film production on video tape; organization of competitions (education or entertainment) in the field of the treatment and processing of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection; organization and holding of colloquia, conferences and conventions in the field of the treatment and processing of waste produced by individuals, communities and businesses, in the field of water treatment, in the field of environmental protection; online electronic publishing of books and periodicals; desktop publishing.
